

EVOLVE SERIES® SOFTENERS

Evolve®

BETTER SCIENCE. BRILLIANT WATER.®

THE ART AND SCIENCE OF QUALITY WATER.

Water. In its cleanest form, it's as simple as two parts hydrogen, one part oxygen. Unfortunately, getting it this clean, this brilliant is not so simple.

There's a lot of science and even some artistry needed to provide your household with the quality water you deserve. Our Evolve Series® Softeners are proudly made in the USA, and are designed to provide the best water possible.

BRINGING SCIENCE TO YOUR HOME.

It's a fact that every household has unique water. Which also means every household has individual water treatment needs. Whether you're a city water customer or a well owner, your water problems might include:

- Iron causing rust stains and build-up
- Hardness creating deposits and lessening the effectiveness of detergents
- Acidic water leaving blue and green stains on fixtures while corroding plumbing
- Foul odor and taste from various minerals and high chlorine levels

The science behind high-quality water is the hard part, but the formula for your household is simple. More efficient water leads to a more efficient home. It optimizes performance levels and the lifecycle of your appliances and fixtures. It requires fewer detergents and cleaners. More simply – better water saves you and your family money.

As your professional Evolve Series dealer, we can help you pinpoint your specific water problems and customize the system that's perfect for your individual household needs.

A close-up photograph of a young woman with brown hair, smiling broadly as she splashes water onto her face. Her eyes are bright, and her teeth are visible. The background is a soft, light blue. The overall mood is fresh and clean.

INNOVATIONS FOR BETTER WATER.

Evolve Series® Softeners are designed to be flexible, and include some of the most advanced, eco-friendly features in the industry. You can rest assured that there is an Evolve Series Softener with the solution for your problem.

EVR

ADVANCED, HIGH-PERFORMANCE TREATMENT.

Softening water is just the beginning for the EVR. It's also a self-chlorinating unit that delivers and maintains a higher level of water quality.

Its high-performance resin media and patented cleaning and monitoring technology allows a precise level of free chlorine to pass through the media bed with each regeneration eliminating unwanted tastes and odors.

The EVR also features Evolve's most advanced, patented IQ² controller technology. This innovative controller allows your EVR system to be fine-tuned specifically to your water treatment needs. Saving your household water, and most importantly money.

The result is the brilliant water your household deserves through Evolve's advanced technology and better science.

EVRC

KICKING CITY WATER PROBLEMS TO THE CURB.

The EVRC is not only ideal for reducing levels of hardness, it also handles common odor and taste problems associated with city water with its high-performance resin media and activated carbon configuration.

Utilizing split tank technology, this unit combines the power of two medias in one tank, eliminating the need for two systems. The EVRC is designed to be environmentally-friendly while safeguarding your household plumbing, improving taste and eliminating unwanted odors.

The result is more brilliant water through better science, which saves you time and money.

EVR: THE DESIGN OF FLEXIBILITY AND EFFICIENCY.

Every component, every feature, every innovation of the EVR has been designed to bring the highest quality, most efficient water to you and your family.

Patented IQ² technology is smarter.

- Deep cleaning regeneration only when necessary
- Exclusive features save salt and money
- Vacation Mode - convenient, money-saving
- System notifications
- Only one moving part for easy maintenance
- Battery back-up
- Monitored and recorded water usage history

EVR high-capacity resin.

- Powerful and durable resin media
- Eliminates the elements that cause hard water
- Rigorous quality control process for testing the media

Quartz underbedding.

- Delivers high and consistent flow rates
- Provides accurate and efficient cleaning process

Patented, integrated chlorine generator.

- Ability to self-sanitize
- Low/No Salt alerts
- Monitors every cleaning
- Only available on EVR and EVRC models

Low-maintenance brine tank.

- Built-in safety float
- Heavyweight, corrosion-free material
- Dry salt storage
- Less cleaning

EVRS ECO-FRIENDLY, LESS IS MORE DESIGN.

Featuring Evolve's patented IQ² technology,* the EVRS is the newest in green technology using less water and less salt, but operating at peak performance levels automatically.

Unwanted minerals and hardness don't stand a chance while your plumbing and water-using appliances operate at peak efficiencies throughout your household.

Also available as RC (Resin-Carbon) Softener System.

*Excluding the chlorine generator with salt alarm and its other features.

ES CONVENIENT. ECONOMICAL.

Developed with similar innovations as our more advanced models, the ES* is designed for no-fuss, maximum efficiency. It is a good, cost-effective option delivering the quality water you and your family are looking for.

*Excluding the chlorine generator with salt alarm and its other features.

EVOLVE® TWIN SOFTENER SYSTEMS

CAPABILITY CONNECTS CAPACITY AND EFFICIENCY.

Around-the-clock schedules and busy lifestyles require more water and more capacity. That means high-quality water must be available when you want it and need it – 24 hours a day, 7 days a week. Evolve Twin Softener Systems do just that by connecting two units as one complete, higher capacity system.

Twin systems take high capacity water treatment to the next level. Utilizing patented IQ² technology, the system works to ensure a consistent supply of cleaner water and makes use of its full capacity.

Evolve Twin Softener Systems are available in the following units:

- EVR
- EVRC
- EVRS
- EVRCS

ENSURING THE BETTER WATER THAT YOUR HOUSEHOLD DESERVES.

Evolve Series® Softeners are part of the Evolve water treatment product line, and are built in the USA. Evolve is a trusted name in the water treatment industry and is dedicated to advancing the science and art of innovative water treatment solutions that help create brilliant water for your home.

As an Evolve dealer, we are part of a select group of certified dealers who exclusively sell and service Evolve Series systems. You can rest assured that we will deliver the highest quality water for your family, along with extraordinary customer service.

We have proven water treatment industry expertise and received extensive product and service training specific to Evolve Series systems. Evolve systems fulfill your family's water treatment needs with the highest level of innovation, efficiency and versatility. After all, better science makes brilliant water.
